<b>6</b>	<b>Functions Withdrawn or Scheduled for Withdrawal .....</b>	<b>2</b>

## 1 Scope of the Chapter

The functions in this chapter provide information about the NAG C Library.

`nag_implementation_details` (a00aac) enables you to determine the precise Mark and maintenance level of the NAG C Library which is being used, and also details of the implementation.

`nag_licence_query` (a00acc) enables you to check if a valid key is available for the library licence management system.

`nag_implementation_separated_details` (a00adc) is similar to `nag_implementation_details` (a00aac) but returns different aspects of an implementation, such as the product code and Mark in separate strings and integers.

Information about the precise implementation of the NAG C Library in use will be needed when communicating with the NAG Response Centre (see the Essential Introduction).

## 2 Background to the Problems

None.

## 3 Recommendations on Choice and Use of Available Functions

None.

## 4 Functionality Index

Check availability of a valid licence key ..... `nag_licence_query` (a00acc)

Library identification,

    print details of implementation and mark ..... `nag_implementation_details` (a00aac)

    separated details of implementation, and major and minor mark

        ..... `nag_implementation_separated_details` (a00adc)

## 5 Auxiliary Functions Associated with Library Function Arguments

None.

## 6 Functions Withdrawn or Scheduled for Withdrawal

None.
